TECS

TECHNICAL SUPPLIES

Head quartered in Muscat, with branch offices at Sohar, Salalah and Duqm.

TECS was founded in the year 2003 as a small trading unit, and has expanded as a specialized industrial solutions provider over the years.

Our business segment has diversified into various verticals:

1.Electrical

2.Instrumentation

3.Oil and Gas

4.Fixing Systems

5.Lighting

6.Tools and Core Cutting

7.Drives and Automation

Representing over 150+ suppliers from around the globe, with over 300+ satisfied customers, excellent logistics, world class storage facilities and a dedicated team of multinational employees.
TECS also has a state of the art training facility with demo units of various products to provide technical educational programs to the customers.

Vision

To become a leading industrial solutions provider in the Middle East offering most suitable products and services exceeding customer expectations.

Mission

To create meaningful relationships between our clients and our experienced team of experts and to provide cost effective solutions for all product needs.

Lighting USP

1. Accurate Planning and commitment to excel
2. Right Stakeholders and Partners
3. Focused Market Approach

Lighting - About Us

From a humble beginning in March 2012, Lighting Division started from ground zero. Market intelligence, technical expertise, clear vision & financial capability were the key factors to kick start the Division.
Establishing credentials in the Market and partnership with right Suppliers across the globe, were challenges for the Division.

Selected a few sectors of the wide open market.
Partnered with renowned and established Brands.

Team Building was the next challenge! TEAM LIGHTING - a mix of Technocrats thus formed, had a common goal of achievement!

Projects were focused, specifications crafted and solutions provided.
Overcame all barriers, and took the banner of victory!!!
Customer satisfaction and commitment is our success motto.
